Recruitment • IT Services • Engineering Services

Company Profile

Revenue: \$500K – \$10M+ • Employees: 10–100 • Age: 3–20 Years •
Location: USA, Canada, UK, Australia, UAE • Decision Makers: Founder,
CEO, Managing Director, Owner, Operations Director

Core Need: Generate more leads, build credibility, and improve operational efficiency.

Strong Budgets, Clear ROI, and Accessible Decision Makers

- ✓ High Purchasing Power — Projects commonly range from \$5,000–\$20,000+.
- ✓ Clear ROI — Better websites, stronger brands, and automation directly impact revenue.
- ✓ Easy To Reach — Decision makers are accessible via LinkedIn, email, and company websites.
- ✓ Underserved Digitally — Many established businesses still rely on outdated sites and manual processes.

Three Core Problem Areas

Credibility Problems

Outdated website • Weak branding • Poor online presence

Lead Generation Problems

Low inquiry volume • Poor conversion rates • Weak calls-to-action

Operational Problems

Manual workflows • No CRM setup • No automation

Outcomes

Look more credible • Generate qualified leads • Improve customer experience • Reduce manual work • Scale operations

Quality Over Volume Channel Priorities

Priority 1 — Cold Email

Priority 2 — LinkedIn Outreach

Priority 3 — Personalized Video Audits

Priority 4 — Referrals & Introductions

Simple, Personalized, High-Relevance Structure

Observation — “I noticed...”

Problem — “This may be limiting...”

Opportunity — “We’ve helped businesses improve...”

CTA — “Would you be open to a few suggestions?”

Avoid: Long pitches, generic templates, and selling immediately.

Prioritize Companies Showing Buying Momentum

Are Hiring — Growth creates operational and branding needs.

Recently Rebranded — Often followed by website and system upgrades.

Expanded Services — Requires updated positioning and lead generation.

Increased Marketing Activity — Indicates willingness to invest.
